To do

In this book we'll cover the work that is needed in order to bring this resource to a place where it becomes useful and productive

- Infrastructure

People

In order for this resource to become useful to all parties involved, we need to gather staff comprised of Israelis and Palestinians, people interested in peace and who will be loyal to that cause despite their pain, their loses, and from an understanding that all native tribes belong on the land.

I've identified some individuals, some of them are journalists or authors, some are professionals in other fields, and I reached out to them asking for help. Hopefully this will happen.

Content

We started gathering information about the Israeli side, Jewish history, etc. We now need to do the same for the Palestinian Arab side of things.

I'm working to obtain photos from the area. There are many resources, and a ton of photos showing life in the region even as far back as the late 1800's.

Infrastructure

We need to decide on a discussion platform. Right now the plan is to setup a Discord server where real-time discussion can take place. We need to also discuss whether or not we want to also have an outreach on platforms such as Reddit, or have our own forum that we can moderate without the hindrances of the Pro-Hamas / Anti-Jewish reddit staff.
